Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This is in response to an appeal brief filed on December 18th, 2006. After careful consideration of the appeal brief and additional search, prosecution is hereby reopened.
2. Applicant's arguments with respect to claims 1-43 have been considered but are moot in view of the new ground(s) of rejection in view of a new found prior art. Although the new found prior art has been used and withdrawn as a secondary reference in a prior office action, upon reviewing the art, Examiner concluded that the prior art was in fact very relevant and teach or suggest to claimed invention.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 35-37 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Shah et al (U.S. PG Pub No. 2003/0078893).

Art Unit: 3621

5. As per claim 35, Shah et al teach a value bearing indicium (VBI) comprising a 2-D barcode including relevant information; and a text representation of a digital signature generated from a message digest, the message digest generated using a secure hash algorithm to hash the relevant information, wherein the 2-D bar code excludes the digital signature (*see fig 7, pps 0043, 0063, 0067-0076*).

6. As per claim 36, 37, Shah et al teach a value bearing indicium wherein the VBI is postage for a mail piece; and the relevant information is mailing information including one or more of an indicium version number, an algorithm identifier, a certificate serial number, a postage security device manufacturer identifier, a postage security device model identifier, a postage security device serial number, an ascending register value, a postage amount, a date of mailing, a licensing postal code, a software identifier, a descending register value, and a rate category (*see pp 0072-0076*).

Allowable Subject Matter

7. Claims 1-34 and 38-41 are allowed.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (*see form 892*).

Art Unit: 3621
